I cannot go and see him as visitors are not allowed inside the hospital at all. The 1st hospital he was taken to for 4 days from Friday the 20th August 2021 till Tuesday 24th August 2021... he had deteriorated so badly that I took him home rather. I could see nothing was being done to help my husband as said he should've had an MRI scan on the Saturday 21st August 2021 and there was pure neglect and no communication as to what was wrong with my husband. I read the report and he had a stroke thus him being admitted into hospital into the MICU ward from Friday 27th August 2021. Netcare St Augustine's Hospital. I want to just cover for instance my Bible while sitting on my bed. I found myself staring at everything, not able to do anything. I forget, I can't concentrate, my eyes just shut even if I just woke up. I am trying every morning because every morning when I wake up I am hoping my head and brain will be like it was before the vaccine. then it isn't (and I know this is NOT depression), then I hope if I walked to the door to open for my dogs that the tiredness will be gone, then it isn't there. I am just so tired of going on like this for so long. I can't handle it anymore. I can't... how can they just give vaccines if they not 100% sure there will not be side effects? Everyday I wish I can reverse time and I then I will never walk to my front door I'm exhausted, maybe it effected my brain, feeling weak, eyes just want to shut	Disability definitely because my brain is not functioning normal. The other day I felt so sick and my friend phoned the Government Ambulance to take me to Steve Biko hospital. The ER people took a EKG and check my oxygen with oximeter and my blood pressure and said all look normal. they can't take me to hospital. They said that The Government hospital will only take patients that is busy to die, or was in an accident or were bleeding. The driver of the ambulance apologized and said that they will just be denied entrance and it will end up for them to bring me back home. Without taking me anywhere they left and I received a bill of R1003.00 to pay. This is supposed to be the Free Government hospital if you do not have a medical aid or income. It just do not work like that, they don't help people like me.
