203	Family Member	Male	78	WC	Yes	Yes	No	No	No	No	No	Definitely not	2021/07/30	Pfizer	2021/07/30	0	Brain damage	No	No	2021/08/12	13	13	No	No	No	Definitely misinformed and led to, but nobody forced him. In actual fact he believed this was for better. He was accredited to go on his pilgrimage in 2022, so people told him he has to be vaccinated or he will miss the Gadi travels again. That was the main reason why he took the vaccine.	Those who have already taken the vaccine need to make sure that they stay away from the booster shots and take special care of their health, and those who haven't taken the vaccine, should make sure that they are 100% sure that what they allow to go into their bodies are good for their health and take a positive stand not to allow any trial drug to enter their systems.	2021

I cannot go and see him as visitors are not allowed inside the hospital at all. The 2nd hospital he was taken to for 4 days from Friday the 20th August 2021 till Tuesday 24th August 2021. He had deteriorated so badly that I took him home rather. I could see nothing was being done to help my husband as said he should've had an MRI scan on the Saturday 21 August 2021 and there was pure neglect and no communication as to what was wrong with my husband. I read the report and he had a stroke thus him being admitted into hospital into the MICU Neuro ward from Friday 27th August 2021. Netcare St Augustine's hospital.	No	Emergency room / department or urgent care, Hospitalization, Life threatening illness (Immediate risk of death from event), Disability or permanent damage																			2021

411	Injected person	Female	50	GP	Yes	Yes	No	No	No		2021/08/10	Pfizer	2021/08/11	1	Chest Pain, Headaches, Amnesia + Memory Loss, Extreme Tiredness, Heart pain, Confusion, Feel like brain is not functional like always, Off balance, eyes blurry, shortness of breath at least 2 times a day, if I walk to my front door I'm exhausted, maybe it effected my brain, feeling weak, eyes just want to shut	it used to before the vaccine. To describe to you, I feel dumb. I want to just cover for instance my bible while sitting on my bed. I found myself staring at everything... not able to do anything. I forget, I can't concentrate, my eyes just shut even if I just woke up. I am crying every morning because every morning when I wake up I am hoping my head and brain will be like it was before the vaccine... then it isn't (and I know this is NOT depression), then I hope if I walked to the door to open for my dogs that the tiredness will be gone... then it's still there... I am just so tired of going on like this for so long. I can't handle it anymore. I can't... how can they just give vaccines if they not 100% sure there will not be side effects? (everyday I wish I can reverse time and I then I will never have gone for the 1st vaccine. This changed my wellbeing to the total worse. I am crying a lot, I feel useless. I NEED HELP. PROVERB TESTS THAT I CANNOT AFFORD... PLEASE I'M BEGGING YOU. Maybe the vaccine damaged something in my brain...	Disability definitely because my brain is not functioning normal. The other day I felt so sick and my friend phoned the Government Ambulance to take me to Steve Biko hospital. The 00 people took a EKG and check my oxygen with oxymeter and my blood pressure and said all look normal... they can't take me to hospital. They said that The Government hospital will only take patients that is busy to die, or was in an accident or were bleeding. The driver of the ambulance apologized and said that they will just be denied entrance and it will end up for them to bring me back home. Without taking me anywhere they left and I received a bill of R1000.00 to pay. This is supposed to be the Free Government hospital if you do not have a medical aid or income. It just do not work like that, they don't help people like me.	74	Unknown	Unknown	unknown				2021

																	This is the most terrifying thing I have experienced! Just feeling so unwell for sooo long s not my mind into a very dark place! There didn't seem to be any medical assistance and I just got pushed from Dr to Dr, without any relief or help!!! Mounting medical bills and not able to go to work and used up all my sick days, so not even being paid now!!!! Where to next?????

																	Since getting the vaccine I'm sick every week and I mean every week. I never use to get flu the way I'm getting now. Chest pains as well. Shortness of breath. I've been sick over a week now. The clinic only gave me painkillers, alleigx and vitamin c.													
484	Healthcare Professional	Female	31	EC	Yes	Yes	No	No	No	No	No	No	2021/08/24	J&J	2021/08/25	1	Headaches	Unknown	N/A	Unknown	2	Unknown	Unknown	unknown	unknown			2021

																	Severe depression due to illness, immobility, separation from my small children and being unable to see my family for 11 days due to covid restrictions at the hospital. Severe depression due to the limitations on my exercise capabilities now that I am in recovery, I am not the same person. I feel unwell most days of the week and still have many days where I am unwell and sleep most of the time. Sore and stiff bones, joints and severe headaches (different to the migraines I used to have) randomly appear and has affected my daily life where I can't plan ahead.
